GREEN BAY (WLUK) -- The best sports venue in the U.S. for 2024 is right here in Northeast Wisconsin, at least according to one study.

[Gambling.com](#) ranked the best and worst sports venues in the country based on fan reviews from Google, Tripadvisor and Facebook.

Lambeau Field's 4.93 score out of five landed it in the top spot. Gambling.com writes:

Attending an NFL game at Lambeau Field is on many people's wish list, but getting tickets for games are very difficult.

Green Bay is a one-team city and therefore demand to attend Packers game is very high. The waiting list for season tickets for the Packers currently stands

about 60 years, as tickets get handed down from generation to generation with great prestige.

There is a certain charm associated with a trip to Lambeau Field, also known as the frozen tundra in wintertime, where a warm welcome awaits everyone, with the possible exception of Chicago Bears supporters. Purists will be happy that the oldest continually operating NFL stadium has come out on top ahead of the numerous new stadiums that have sprung up in recent years.

The home of the Packers beat out PNC Park, where the Pittsburgh Pirates play (4.87), and Oriole Park in Baltimore (4.83).
